Vinyl Wristbands

Vinyl wristbands are popular for events and venues looking for highly durable, secure and water resistant wristbands that can last several days or even weeks. Like holographic wristbands, vinyl wristbands feature single-use locking latches, which once closed cannot be opened without breaking the wristband. This prevents counterfeiting and interchangeability between guests.

Made of multi-layer vinyl, these wristbands are ideal for aquatic applications, as they resist water and moisture better than most other materials.

We offer a variety of colors; all of our vinyl wristbands are available in vibrant, eye-catching colors that help your guests stand out in a crowd. Consider rotating colors weekly so your staff can visually identify authorized guests and enhance security.

To enhance branding and security, consider our custom vinyl wristbands. Design your unique wristbands with the logo or message of your choice and make your event really stand out.

Wide range of use

Vinyl wristbands are used in places where it is necessary to identify customers, such as parties, bars, discos, water parks, exhibitions, festivals, concerts, carnivals, sporting events, etc., to provide you with an excellent experience.

We guarantee your satisfaction!
